OBJECTIVE

Computer Science graduate with backend development experience seeking Associate Software Development Engineer role.

EDUCATION

Bachelor of Science in Computer Science, Maharaja Agrasen Institute of Technology   2021 - 2025
GPA: 8.5/10.0

SKILLS

Programming Languages	Java, JavaScript, TypeScript, Python, C++, HTML, CSS, SQL
Frameworks	React.js, Node.js, Express.js, Redux, TailwindCSS
Databases & Tools	MongoDB, MySQL, PostgreSQL, Git, GitHub, Postman, Docker
Technical Skills	Data Structures, Algorithms, System Design, RESTful APIs

EXPERIENCE

Software Engineer Intern   June 2024 - Present
Bharat Datacenter   *New Delhi, India*

- Developed scalable backend services and responsive UI components, improving user engagement by 15% and system performance by 25% for 10,000+ daily users
- Optimized application architecture using data structures and algorithms, reducing page load times by 25% and enhancing system reliability across distributed environments

Software Engineer Intern   March 2024 - June 2024
DMO   *New Delhi, India*

- Built enterprise inventory management system using Java and RESTful APIs, processing 500+ SKUs with 40% faster tracking and improved data consistency
- Implemented comprehensive API testing automation with Postman, achieving 95% code coverage and reducing production bugs by 28% through robust backend validation

PROJECTS

Middle Finance. Financial platform processing 500+ daily transactions with 99.8% accuracy using ACID transactions and JWT authentication with 42% faster RESTful APIs. *React.js, Node.js, MongoDB* (GitHub)

Infrastructure Management System. IT asset tracking system managing 1000+ devices, reducing inconsistencies by 30% and maintaining 99.5% uptime. *React.js, Python, PostgreSQL* (GitHub)

Mindscape. Wellness platform serving 300+ users with 85% retention rate and backend infrastructure achieving 99.9% uptime with 45% reduced latency. *React.js, TypeScript, TailwindCSS* (GitHub)

EXTRA-CURRICULAR ACTIVITIES

- Open-source contributor on GitHub and competitive programmer with 200+ LeetCode problems solved, demonstrating strong problem-solving skills

LEADERSHIP

- Led cross-functional development team of 5 members in capstone project using agile methodologies, delivering scalable solution 2 weeks ahead of schedule with high code quality
